

To whom it may concern. I am in favor of the proposed LNP plan. I've changed wireless carriers 3 times and each time I have to change my phone #. This has resulted in hundreds of dollars of business cards, letterhead etc... that needed to be changed. I think that this plan is worth great consideration for the majority of phone users across the U.S. It's time to put control back into the taxpayer's and bill payer's pocket rather than be dictated by these major wireless corporations what it "have to" do.

Thank you,

Chris Britton
